CHEAGO AS A CONVENTION TOWN HAS FALLEN DOWN; SO HAS ITS CONVENTION HALL

INSI- CTOR COMING

HE WIL EXAMINE THE FAULTY FEDERAL BUILDING WORK.

DEFECTIVE FLOORING CAN SOON BE TORN UP AND REPLACED.

Blame for the Job Will Probably Be Placed by the Inspector-Loss Must Be Borne by Contractors-Gunn May Be in

Danger.

A special inspector will come to Kansas City to ascertain why broken brick instead of cinders was used in filling in the flooring of the new postoffice, between the girders and the tiling. Yesterday Supervising Architect Fred Gunn wrote the authorities at Washington a full account of the finding made Sunday, when part of the flooring on the third and fourth floors was torn up, as detailed in The Journal. He also suggested that an inspector be sent to examine into the work being done by Leach & Son, the Chicago contractors.

As was told yesterday, the charges of fraud in the construction of the flooring were made by W. H. Justice, a discharged orkman, who helped dump in brick when the specifications called for cinders.

Was Mr. Gunn to Blame?

As a result of the investigation an attempt may be made to prove that Mr. Gunn was lax in his methods of inspection, in which case there may also be a scramble on the part of local architects to get his job. It is one of the fattest jobs of the kind ever held in the city and even though the government has decided to wake up from its long slumber and have the cobwebs

stand his glance fell on the proprietor, who sat behind a pile of bananas and oranges. The proprietor also slept. Perchance he slept with the full consciousness that his dand even do a little work to hold it.

In the meantime, however, Mr. Gunn does not seem to be worrying about the situation. He claims he has done his full duty and carefully inspected ali the work as it progressed, but failed to detect this particular piece of poor work simply because so complete a code of signals had been arranged by the dishonest workmen that they knew exactly when he was coming and were able to hide under an avalanche of cement the piles of rejected brick being used for filling.

It will Course No Delay.

It Will Cause No Delay.

The exact amount of flooring that will have to be torn up depends a great deal on may view the construction. When the investigation was made Sunday it was found the greater part of the poor work had been greatly lessened. The inspector may decide with his tribesmen, has taken the war-that instead of tearing up all of the two path against the insurgents, who are holdremove the tiling and cement filling at warm battle. places where the plans show it to be several inches thick, as it is at these places the claim is made the broken brick was used. If the entire two floors are taken up it will not necessarily delay construction on the rest of the building, as work can proceed as usual on the other floors.

Contractors Must Stand Loss.

The cost of reconstruction will, of course, fall on the contractors, whether they had knowledge of what was going on or not, as the government always despecifications, and insists it must be done right, no matter what the loss to the man doing the job. This, however, is expected to be all the penalty that will be exacted, in view of the fact that a claim can be easily made that it was all the fault of a foreman that inferior material was used. Mr. Gunn has expressed the belief that the foreman simply used the brick, which littered up the floor, for the purpose of getting rid of it without having to haul it

Five Cases Have Developed Among Those Stationed at Cabanas Fortress, Havana.

HAVANA, Aug. 28 .- Owing to the development of five cases of yellow fever of a mild type among the United States troops at Cabanas fortress, the contingent there was removed to-day to a camp about mile away. It is believed this will prevent any general outbreak. The authorities have not considered the barracks at Cabanas unhealthful and the troops had been there three months. It is quite certain that the sickness was introduced by men who had frequented barrooms and other unsanitary

places.
Only two cases of yellow fever now remain among the United States troops at Puerto Principe.

NOT A "STATES' RIGHTS" MAN. Governor McMillan, of Tennessee, Wants the Government to Handle the Trusts.

CHATTANOOGA, TENN., Aug. 28.-Gov. ernor Benton McMillan, of Tennessee, stat-ed to-day that he will attend the antitrust conference of governors in St. Louis next month. "The reason I am going." he said, "is to use my influence to prevent the movement to shift the responsibility for trusts from the federal government to the states. The federal government is re-sponsible for trusts, and I want the re-sponsibility to remain there."

KILLED HIMSELF TOO SOON.

Irish Official Commits Suicide of Hearing a False Rumor of His

Daughter's Death. DUBLIN, Aug. 28 .- J. M. Sinclair, high sheriff of Donegal, committed suicide by shooting himself yesterday, on receipt of shooting himself yesterday, on receipt of the announcement that his daughter. Is years old, had been drowned in another part of the country. The latter story now turns out to be false, and has caused an immense sensation in the county where the family is prominent. The author of the falschood which caused the father to commit suicide is unknown.

Dewey Visits Nice Again

NICE, Aug. 28.—Admiral Dewey, accompanied by Lieutenants Brumby and Caldwell, arrived here this afternoon. Accepting the United States vice consul's invitation, the admiral drove to Point Anfree, stopping at the Grotto. Thence he ascended the Falicon, from which there is a superbody. Superb view.

The American officers returned to Ville-

EXPLORER TELLS OF HIS TRIP TO FRANZ JOSEF LAND.

NOT READY TO SAY THAT HE WILL

TRY IT AGAIN, HOWEVER.

Still Doubtful as to Whether or Not He Will Have Any Use of the Leg That Was Injured—A Kansas Man With the Expedition.

HULL, ENGLAND, Aug. 23.—Walter Wellman, the leader of the Wellman polar expedition, who returned to Tromsoe, Norway, August 17, after having successfully completed explorations in Franz Josef Land, arrived here to-day. He walks with the aid of crutches, his right leg, which was seriously injured by a fall into a snow mand liboat, which brought the party from mand header of the Norwegians which which brought the party from mand header of the Wellman is much thinner than formerly. His right leg is drawn up a foot from the ground and it is not known whether he will ever again use it. He will consult a specialist in London immediately. On board the Eldorado, the Norwegian mand liboat, which brought the party from mand broader the party from mand that Payer's so-called Dover glacier does not exist.

"It still believe it is possible to reach the pole by Franz Josef Land. But I cannot say if I shall make another effort."

After Mr. Wellman's return to Harmsworth house, April 3, Baldwin and four Norwegian are went out to Wilczek Land. They named it Graham Bell Land, after the president of the American Geographical Society. Baldwin returned to the base April 30.

A fairly complete Survey of the archipelago has been prepared by Mr. Wellman and his party. They all show traces of hardship. The faces are pale and drawn, and Wellman is much thinner than for more policy. His right leg is drawn up a foot from the ground and it is not known whether he will ever again use it. He will consult a specialist in London immediately. Otherwise he is in good health and spirits.

On board the Eldorado, the Norwegian mateuring the well was proved to whether he will be party from the pole by Franz Josef Land. They named it Graham Bell Land, after the president of the American Geographical Society. Baldwin returned to the base April 30.

A fairly complete survey of the was seriously injured by a fall into a snow covered crevasse, while Mr. Wellman was leading his party, still being useless. The explorer was accompanied by the Amerian members of the expedition, who are well. In an interview with a representative of the Associated Press, Mr. Wellman

"The object of the expedition was twofold-to complete the exploration of Franz Josef Land, which was successfully accomplished. The second, which was to penetrate as far north as possible, would have been achieved, at least to a greater extent than by previous explorers, but for the accident to myself."

Mr. Wellman recounted the starting of the expedition from Tromsoe, June 26, 1898, how it reached Elmwood, the headquarters of the Jackson expedition, July 28, and noisted there the stars and stripes underneath the union jack, which had been flying over the deserted settlement for nearly two years.

The provisions left for Professor Andree, the missing aeronaut, were found by Mr. Wellman untouched.

After leaving letters about his own expedition and taking a collapsible house with him, Mr. Wellman proceeded due east for Cape Tegelhoff, and arrived there July 30, 1898. There the party landed all the stores, and the steamer returned to Norway.
"We established our headquarters in the

little house brought from Jackson's headquarters," continued Mr. Wellman, "over which flew the stars and stripes.

"Desiring to push further north with the greatest speed, I dispatched Baldwin, August 5, with the Norwegians, sledges, dogs and boats, myself and others intending to follow in a few days. Shortly after Baldwin's departure I discovered that, owing to a sudden break-up of the ice, I was unable to proceed, but I sent two Norwegians to inform Baldwin to build his outpost, done in the vaults, presumably on the MANILA, Aug. 28, 7:43 p. m.—A report re-theory that being dark there, detection was ceived here from Cebu says Dato Mundi. leave two men in charge of it, and return to my beadquarters."

Here Lieutenant Evelyn B. Baldwin, of floors all that will be necessary will be to ing Zamboanga, and has given them a the United States weather bureau, told of the doings of his expedition. He said:

"September 21 my party reached Cape Heller, in latitude 81, where we decided to make an outpost. From the very outset we had a constant fight with the high seas, ice and wind and there was a continual fog The ice underneath us parted with terrific crashes, leaving us adrift on small floes Here we built a station and called it Fort McKinley. We stocked it with blubber and meat, and leaving there two volunteers, Ventzen and Bjoervig, I started to return, October 22, to Mr. Wellman's headquarters, arriving there October 30 in safety, in spite of great hardships, cold, dark-

The party spent the winter comfortably in Harmsworth house, which was com-pletely buried in snow; They killed many bears. Mr. Wellman, February 18, 1899 with Norwegians, with sledges and dogs

Mr. Wellman, continuing, said: "February 26, 1899, I arrived at Fort McKinley Bioervig, rifle in hand, stood at the mouth of the snow tunnel. He wrung my hand for unexampled speed in completing the to engraver who instigated the arrests, and with tears in his eyes, said: 'Poor Ventzen is dead." " 'Of course you have buried him." I said

"'No,' Bjoervig replied, 'he lies there,

pointing to the hut. 'I have kept my prom

"The two men had made a compact that n case of death the survivor should keep the body until help came. In the little hut the quick and the dead had slept side by side through two months of Arctic dark-

"Bjoervig said he had managed to keep up his spirits by reciting aloud Ibsen's poetry. "The next day we gathered stones and under these buried our dead comrade. A few fitting words were spoken as we stood around in 70 degrees of frost.

"After a delay of ten days the party, including Bjoervig, pressed north in sledges, and by March we reached 82 degrees, east

and by March we reached \$2 degrees, east of Rudolf Island.

"The prospects then were most reassuring. We had three months of the best season before us and were confident of reaching \$7 degrees. Though, of course, we had suffered from cold, we were all in fine form. "Then a seemingly trivial accident turned the advance into a precipitate retreat. the advance into a precipitate retreat. While struggling with the sledges in rough ice my right leg was bruised and sprained by my failing into a hidden crevice. For two days I went on, and, if other circumstances had not occurred. I should have pressed days I went on, and, if other circumstances had not occurred. I should have pressed onward so far that I would never have been able to return alive. At midnight, March 22, we were awakened by the crashing of the ice under our feet. It swayed and deep crevices yawned about us. Several dogs and storm it was impossible to see a path of safety. Expecting to be overwhelmed at any moment by the ice, we scrambled over the field of ice and saved most of our equiption of the field of ice and saved most of our equiption.

ment, except the dog food, reaching a place of safety in half an hour. "Our brave Norwegian comrades did not express the slightest fear. While it was possible to go on for a time, my leg now demanded a retreat. For two or three days I stumbled along, until I fell. There was nothing to do then but get on a sledge and be dragged back to headquarters by the men and dogs. Forced marches by my devoted comrades saved my life. "The point at which we turned back was twenty-five miles northwest of Freeden islands, where Dr. Nansen landed in 1855. North of these islands we photographed three islands and some large land, unseen either by Payer or Nansen. We also found that Payer's so-called Dover giacier does not exist. "I still believe it is possible to reach the

PUEBLO, COLL, Aug. 28.—Nebraska's regiment of volunteers passed through Pueblo to-day and were given a warm welcome by the citizens, who turned out several thousand strong to greet the returning troops. The first section arrived at 2:15 p. m., but the other sections were delayed by a small freight wreck in Brown's canon, near Salida, and it was in the neighborhood of 7 o'clock when they came in. Pueblo had a band at the station and the men expressed themselves as pleased with the attention shown them, whilch they said was the most marked of any since their departure from San Francisco.

They appeared, with but few exceptions, in robust health, and high spirits, and are delighted with the prospect of returning home. Company, of Pitisburg, Pa., to turn over its work to-night to the general contractors. The commission "traveler," or derrick, which had been used in the erection of the arches, had been removed and the agents of the bridge company were accounting their work as practically completed, when suddenly and without the slightest preliminary warning, the arch last put in place suddenly fell over against [Toolbar 1] The side walls of the fall of 1834. The side walls of the slightest preliminary warning, the arch last put in place suddenly fell over against [Toolbar 1] The side walls of the fall of 1834. The side walls of the slightest preliminary warning, the arch last put in place suddenly fell over against [Toolbar 1] The side walls of the fall of 1834. The side walls of the slightest preliminary warning, the arch was the custom of the contractor to all the side walls of the slightest preliminary warning. The side walls of the slightest preliminary warning was the custom of the contractor to all the side walls of the slightest preliminary warning. last put in place suddenly fell over against the one next to it. The weight was too low his men time for lunch between 11:30

Nearly all the men who were killed were that after the new regiments are on their at work on top of the arches, forty feet way to the Philippines the subject of more above the ground. Some of them made futile attempts to slide down the side of the arches, but before they could help erals of the regular army and six briga-diers. Of this number only one brigadier ground. Many of them uttered piercing ground. Many of them uttered piercing shrieks for aid as they fell. Most of them were killed outright by the awful nature of their injuries. The skulis of the unfortunate men were crushed into shapeless masses; their limbs were cut off as if by a general. Otis, nolding a commission as ma- shrieks for aid as they fell. Most of them It is generally conceded that the number of general officers in the Philippines, thirteen at present, will not be sufficient to command the force of 60,000 men, but no selections have yet been made.

Adjutant General Corbin said to-day that there was no foundation for the report that the war department proposed to organize three more regiments of volunteers, and, in that way utilize the entire volunmonster knife, and they were mangled beyond recognition.

yond recognition.

The immense structure began falling slowly, each arch being sustained by the cross beams supporting the entire structure. As the mass gained impetus, bars of iron inches thick snapped with a loud report and the great mass moved faster and faster in its descent. To the ground with a crash that was heard blocks distant, the structure fell, leaving the walls practically uninjured, and sending up great

over the mass of wreckage, making des-perate efforts to drag out the dead and to save the wounded. It was only with the greatest difficulty that the police were finally able to drive back the crowd and here to-day from Vancouver, B. C., where he arrived August 9 from Hong Kong. give the firemen and uninjured workmen a chance to rescue the injured.

a chance to rescue the injured.

That more men were not killed and injured was almost a miracle. Fully fifty men were at work in the space covered by the arches as they fell. A number of the men fell into small excavations, of which there are many in the ground beneath the steel work, and although some were battered up by their tumble, were saved from the great masses of steel that crashed down over them.

fortune happened to stand in the space left vacant by the curve of the arches away from the side walls. Had the arches fallen to either side, the loss of life must have been much heavier, but they fell true to the south on a line parallel to the sides of the building and none of them, save the two southern arches, fell at all outside of the space to be occupied by the building. the space to be occupied by the building. Some exceedingly narrow escapes were recounted along with the story of how some of the unfortunate workingmen went to their death. Thomas Rabishaw, of 1309 Wabash, a bridge builder, was at work on the second arch next to the south end of the structure. When he heard the cry of warning coming from his comrades on the roof and felt the building shaking, he took a tight hold upon the beam upon which he had been working. When he realized that the whole superstructure was going to the ground, he sild down the beam, a distance of about forty feet, and then plunged into

the whole superstructure was going to the ground, he sild down the beam, a distance of about forty feet, and then plunged into the mud in the excavation at the southeast corner of the building. This was the only open space at hand and just north of the brick wall being built to form the south enclosure to the Coliseum.

He was stunned and dazed for a few minutes only, and then assisted in the work of relieving his fellow workmen. Afterward he said he felt as if he had come up out of the grave. He said he never expected to make the descent and come through it alive.

Michael Bloomer was working on the south end of the building on the west side of the roof. With him was his partner. Cornelius Toomey. When they felt the building shaking both grasped the from arch pipe, upon which they had been working, and came down with the falling structure. Toomey was seriously if not fatally injured, and removed to the hospital. Bloomer received only a few bruises.

The direct cause of the accident is not known, and it will probably be several days before it is actually determined.

One theory which receives some support is that a shifting of sand Leneath the

riet Robinson, the only direct descendent of Columbus in America, died at her home in Sandusky to-day, aged 89 years. Mrs. Robinson became noted during the world's fair. She leaves a son, Mr. Henry Rob-inson, of New York, a well known law-

Eight Negroes Drowned.

DARDANELLE, ARK., Aug. 28.—A party of negroes, consisting of Mrs. Calvin Jackson and two children and Mrs. John Smith, with three children, and Louis Price, a grown man, were crossing the river in a skiff, seven miles below here to-day, when from some unknown cause the boat capsized, drowning the entire party.

Tried Suicide by Wholesale.

BURLINGTON, IA., Aug. 28.—Jealousy caused Conrad Falscraft, aged 20. to shoot his wife, aged 19, and then fatally wound himself to-day. He will die, but his wife

Appendicitis Prompts to Suicide.

ST. JOSEPH. MO., Aug. 28.—(Special.) Albert Bruin, a laborer suffering with a hopeless case of appendicitis, ended his misery by cutting his throat with a razor. He left a family.

Topeka Oil Mill to Resume.

burg Bridge Company, was unable to advance any cause for the collapse of the structure.

The work of rebuilding will commence at once, and it is expected that to-day's acci-dent will delay the opening of the building not over one month. No mancial loss will fall upon the Coliseum company, which is erecting the structure. The only losers

HE WILL CONTROL CONVENTION

OHIO DEMOCRATS WILL NOMINATE

HIM FOR GOVERNOR.

COLONEL KILBOURNE REFUSES TO CONCEDE HIS DEFEAT.

McLean Men are for Kilbourne for Second Place-Convention Is to Be Held at Zaneaville To-

morrow-Full Ticket to Be Named.

ZANESVILLE, O., Aug. 28.-The Democratic state convention was inaugurated today by the arrival of John R. McLean, in the afternoon and Colonel James Kilbourne to-night and all the other candidates for overnor and other places on the state ticket. While the attendance is unusually large, there are not many delegates here yet. They will come to-morrow with the visiting clubs. The preliminary meetings do not occur until 4 p. m. to-morrow and the convention does not convene till Wednesday.

There probably was no change to-day in

the figures. The arrival of McLean has made his friends more enthusiastic, and the arrival of Kilbourne has made some of his friends more desperate. The other candidates for governor are not doing much except shaking hands, with the exception of Sherwood, who seems to be in line for second place. The McLean men are so confident of not less than seventy-six more than necessary on the first ballot that they are figuring on McLean's running mates. They prefer Colonel James Kilbourne for lieutenant governor, but so far neither he nor his friends will concede the nomination to McLean or accept the second place. If the Kilbourne men hold out, it is that the ticket will be McLean and Sher-

The McLean leaders held a general conference late this afternoon and gave reassurances afterward of a majority of seventy-eight over all, together with claims of seventeen sure and probably eighteen of the twenty-one congressional districts. This would insure them control of all the committees to-morrow night and absolute control of the convention. Judge William T. Mooney will be temporary chairman of the convention, but he is not wanted by the McLean men for permanent chairman. Congressman J. D. Norton will be the per-

congressman J. D. Norton will be the permanent presiding officer.

The candidacy of McLean has brought many prominent men here that have not attended conventions for many years. Some of them are from other states. Nearly all "the old guard" that was in McLean's organization in 1885, when he sought to succeed Sherman as senator, are here and all of the workers he marshaled two years ago against Hanna are here. wo years ago against Hanna are here.
Ilbourne has not only the old friends of hurman, but quite an array of new men his own following. All of the candidates sem to have brought in all the "rooters" callable.

SOUTH M'ALESTER, I. T., Aug. 28.—
(Special.) Ida Smith committed suicide by taking poison last night. Three other inmates of the same resort took poison, but were saved by physicians and are now out of danger. A subscription was taken up for the purpose of burying the unfortunate woman who died.

Siew His Half-Brother.

STANTON, NEB., Aug. 28.—John Johnson, a farmer, living near here, was shot and instantly killed by his half-brother, coliver Anderson. Johnson had attempted to shoot Anderson, but the gun failed to go off. Anderson is now in fall here.

WINNIPEG, MAN., Aug. 28.—Frederick Johnson, a Gilbert Piains farmer, to-day shot and killed his wife and three children and then committed suicide. No reason can be assigned for the deed.

Boy Shoots His Girl Wife.

BURLINGTON, IA., Aug. 28.—Jealousy caused Conrad Falscraft, aged 20, to shoot his wife, aged 18, and then fatally wound himself to-day. He will die, but his wife arrival of Colonel James Kilbourne. During the past week it had been the field against McLean but the closing county conventions of last Saturday gave him such a lead that he has since been considered master of the situation. There are no differences over the platform.

After the arrival of Colonel James Kilbourne to might be triends of all there candidates except those

tion. There are no differences over the platform.
After the arrival of Colonel James Kilbourns tonight the friends of all other candidates except those
for McLean railled around him, and there was quite
an anti-McLean movement and a demonstration in
honor of Kilbourne. Colonel Kilbourne made a fine
impression and proved a pepular mixer, but neither
he nor his friends would give out any figures.
It was currently reported that the McLean men
found they would gain less than Kilbourne in the
'breakaway' from local favorites and for that reason they had decided to keep Sherwood, Steward,
Haskell, Lentz and Chapman in the field, as the
McLean men claimed 75 over all and they did not
want the Kilbourne vole to reach 200.

There was some color given to this report by the
fact that Haskell had been considered out of the racduring the day and working in the interest of McLean, and to-night Haskell announced that he was in
the race again and would stick for a ballet.
